

Staindrop Church of England Primary School

Photographic and Video Policy

Our vision is founded on St Luke's Parable of the Sower. We are the rich soil that enables our children to develop deep roots and flourish. We aim to ensure that everyone grows to fulfil their potential. Our school provides an environment rooted in Christian values where learning, laughter and friendship are at the heart of everything we do.

Through God's love, we are the rich soil where roots grow and seeds flourish. Luke 8:4-15

Background

- This policy covers the recording, use, storage and deletion of still and video images at the school. It should be read in conjunction with the school's data protection, e-safety, CCTV and acceptable use policies. Any examples used in this policy are not exhaustive and the school is able to make decisions on a case by case basis.
- Legally this area is covered by the following:
 - Data Protection Act 1998 - The image of a child is personal data covered by the act unless taken by parents/carers for purely personal use. This means that a school must comply with the Data Protection Act 1998. In practice, a school will need to seek permission to take, use and store images.
 - Education Act 2002 - Obligations to safeguard the welfare of pupils. This may have an impact on children whose location cannot be revealed for safeguarding reasons.
 - Article 8 European Convention on Human Rights - Privacy issues/breach of the child's right to respect for private life. For example, a parent/carer may object to their child's image being taken or shared.
 - Article 10 European Convention on Human Rights - The parent/carer's right to freedom of expression. For example, a parent/carer may wish to record the Nativity play.

Permission to Take and Use Images

- Consent shall be obtained from parents/carers at the start of every school year. It is good practice to ensure that the record of consent is approved as accurate and up to date by the parent/carer on a regular basis. See Appendix I for an example consent form.
- A record of all consent details will be kept securely on file. Should permission be withdrawn by parents/carers at any time, then all relevant images will be removed and disposed of and the record will be updated accordingly.
- Images will not be taken of any child or young person against their wishes. A child or young person's right not to be photographed is to be respected.
- School visitors may only take photographs with the specific permission of a member of the Senior Management Team.

Taking, Storing and Retention of Images and Videos

- As images and videos are personal data this should be processed in accordance with the school's data protection policy.

- Only official school owned equipment (e.g. work provided digital or video cameras) will be used by staff to capture images of children for official purposes. Use of personal cameras or phones by staff is prohibited at all times.
- Staff will receive information regarding the safe and appropriate use of images as part of their safeguarding training and responsibilities.
- Images will be stored securely, for example, by using password protection, restricting the number of people who have access to the files, and ensuring adequate firewall and anti-virus software are in place. If the device is portable this will be encrypted.
- Images will be securely deleted from non-encrypted devices on a regular basis (e.g. transferred from a digital camera to the network on a weekly basis).
- Images will not be kept for longer than is to be considered necessary, and in any event, not exceeding a maximum of three years after the child has left the school. A designated member of staff (SIRO) will ensure that all photographs are permanently wiped from memory cards, computer hardware and portable drives or other relevant devices once the images will no longer be of use.
- The school's management team reserve the right to view any images taken. Members of staff (including volunteers) will ensure that all images are available for scrutiny and will be able to justify any images in their possession.

Processing Images Off-Site

- Any image taken off-site will comply with the requirements of the school's data protection policy.
- The school will ensure that any use of a cloud based storage system complies with the requirements of the school's data protection policy. The school will comply with the Information Commissioner's Office Guidance on the use of cloud computing.

Use of Images/Videos by Children

- The school will discuss and agree age appropriate acceptable use rules with children regarding the appropriate use of cameras, such as, places children cannot take the camera (e.g. unsupervised areas, toilets etc.).
- All staff will be made aware of the acceptable use rules regarding children's use of cameras and will ensure that children are appropriately supervised when taking images for official or curriculum use.

- Members of staff will act as role models of positive behaviour to the children by encouraging them to ask permission before they take any photos.
- Photos taken by children for official use will only be taken with parental/carer consent and will be processed in accordance with the Data Protection Act 1998.
- Parents/carers will be made aware that children will be taking photos/videos of other children and will be informed how these images will be processed.

School Trips

- The school will decide if children are allowed to use their own cameras, phones, tablets and other connected devices, during a school trip on an individual event basis.
- On school trips pupils may take personally owned cameras. (Including disposable and digital cameras) Their use will be monitored by staff and may be confiscated if misused.

Appropriate Events and Locations

- There are some risks involved when taking photographs of some sporting occasions when children are not fully dressed. These apply to both the child, whose image may be misused, as well as the adult who could be accused of taking inappropriate images. The general advice is that children should not be photographed unless appropriately dressed.
- It is not permissible to record images when children are changing.
- In general it is advisable not to record images of children in swimming costumes, but under specific circumstances the school may decide it is appropriate for instance :-
 - Moderation for PE or Swimming Teacher Assessment
 - Celebration of a child showing significant progress with swimming
- The Amateur Swimming Association (ASA) guidance on photography states that all photographs must observe generally accepted standards of decency, in particular:-
 - Action shots should be a celebration of the sporting activity and not a sexualised image in a sporting context.
 - Action shots should not be taken or retained where the photograph reveals a torn or displaced swimming costume.
 - Poolside shots of children should normally be above the waist only in a swimming costume, though full length tracksuit shots are approved.

- Photographs should not be taken from behind swimming blocks at the start of a race or exhibit young swimmers climbing out of the swimming pool.

Use of Webcams/Skype etc.

- Parental/carer consent will be obtained before webcams or video conferencing will be used for curriculum or educational purposes.
- Recordings will only be made with the consent of all parties taking part.

School Website/School managed Social media

- Permission will be obtained from parents/carers before a child's image is uploaded to the school website or social media platform. (*See appendix 1*)
- Children's full names will not be used on the website or Social Media in association with photographs.
- The school will not include any personal addresses, emails, telephone numbers, on videos, on the website, in a prospectus or in other printed publications.
- Children's work will only be published with their permission or their parent's/carer's consent.

Parental/Carer Photography

- Many parents/carers will want to record some of the special moments in their child's school life and the law does not prohibit this. However it is possible that they will also capture images of children other than their own, with a possible impact on their privacy.
- This is a problematic area with contributory factors:
 - Freedom – some parents/carers will want to take pictures of their child at an event, and some will not.
 - Privacy – it is possible that any image captured may have other children in it.
 - Safeguarding – there is a potential that images may be misused. There can be particular concern regarding looked after children
- The school will decide if parental/carer photography and video is appropriate on an individual event basis depending on the nature of the activity and any risks posed to children and staff taking part.

- The school will ensure that parents/carers are aware of any restrictions on photography and will publicise this prior to the event and bring it to the attention of parents/carers at the start of the event.
- Parents/carers have the right to ask for their child not to be photographed. On some occasions that may result in the child being unable to take full part in an activity.
- Parents/carers will be made aware that photography is allowed at the event and that if a parent/carer objects they must contact the school.

Social Media

- Uploading pictures to social media may cause further complications. A parent/carer publically sharing images of other people's children with no controls on privacy may be a breach of data protection rules. However, sharing images of their own children is not a breach of data protection rules.
- Parents/ carers will be reminded that any images or videos shared on social media will be shared only with immediate family and that appropriate privacy settings must be applied.
- Suggested wording for guidance to be given to parents/carers in respect of uploading pictures onto social media:

"We think you should be able to celebrate your child's performance by taking photographs to remember the event. If you do then we ask that if you share them on social media, then only do so with immediate family and not publicly. If you do not know how to do this then contact the school office and we will be happy to show you how."

We will challenge any public publishing of our students' images that comes to our attention if we feel it does not meet our safeguarding obligations.

Remember, there might be children alongside your child who are vulnerable to having their image distributed. If there are, we will let you know of the precautions you need to take."

Press Photography

- Where a press photographer is to be invited to celebrate an event, every effort will be made to ensure that the newspaper's (or other relevant media) requirements can be met. A written agreement will be sought between parents/carers and the press which will request that a pre-agreed and accepted amount of personal information (e.g. first names only) can be published along with images and videos.

- The identity of any press representative will be verified and access will only be permitted where the event is planned, and where press are to be specifically invited to attend. No authorisation will be given to unscheduled visits by the press under any circumstances.
- The photographer will be issued with visitor identification, which must be worn at all times.
- Every effort will be made to ensure the press abide by any specific guidelines should they be requested. No responsibility or liability however can be claimed for situations beyond reasonable control, and where the school is to be considered to have acted in good faith

School Photographs

- Professional photographers who are engaged to record any events will be prepared to work according to the terms of the school's e-Safety policy.
- Photographers will be issued with visitor identification, which must be worn at all times.
- Photographers will sign an agreement which ensures compliance with the Data Protection Act and that those images will only be used for a specific purpose, subject to parental/carers consent.
- Photographers will not have unsupervised access to children and young people.

Photographs by Members of the Public

- When children are taken out of the school grounds, for instance, on a visit it is possible that they could be photographed by members of the public. If the child's privacy is of paramount importance the risk of this should be discussed with parents/carers and appropriate steps taken (see Looked After Children section below).

Looked After Children

- Photographs of looked after children should usually only be taken with the agreement of the person who holds parental responsibility. However, in some circumstances, consent could be obtained from the child's social worker, foster carer or a relative. Please see the school/relevant teacher who is part of the child's care team if you are unsure about who can give consent.

- The school/relevant teacher will be part of a looked after child's care team and attend meetings and looked after reviews; they should know any potential risks regarding any adults or if the placement is protected.
- Looked after children should expect to have as normal an experience as they can and they should not be singled out because they are in care.
- If a child's identity or privacy needs to be protected this should be discussed with the parent/carer and appropriate steps could be agreed. This could include:-
 - o Restricting parental photography for all at events
 - o Subtly removing the child before photographs are taken
 - o Siting the child with the teacher to allow the teacher to take active steps to reduce the possibility of the child being photographed
 - o Sensitive withdrawal of the child from the event with an explanation to the child

Appendix I – Consent

Taking photographs and videos of children and young people

Parental Consents

Sometimes we take photographs of the children. These are mainly used for educational reasons but occasionally we may use these images in our publicity or the school's prospectus or in other printed publications as well as on our website. We may also make video or webcam recordings for school-to-school conferences, monitoring or other educational use. From time to time, our establishment / school may be visited by the media who will take photographs or film footage of a visiting dignitary or other high profile event. Pupils will often appear in these images, which may appear in local or national newspapers, websites or on televised news programmes. Parents will also take images/videos of school events.

To comply with the Data Protection Act 1998, we need your permission before we can photograph or make any recordings of your child. Please answer the questions below, then sign and date the form where shown. **Please note that if any child's parents/carers have not given permission for their child to be photographed that there cannot be any photographs taken at any event where that child is present.**

PLEASE RETURN THE COMPLETED FORM TO THE SCHOOL AS SOON AS POSSIBLE INDICATING IF YOU AGREE THAT WE MAY USE YOUR CHILD'S PHOTOGRAPH IN THE FOLLOWING WAYS:-

May we use your child's:

- Photograph (unidentified) in the school prospectus and other printed publications that we produce for promotional purposes **and**
- Image in photo form on video or webcam (unidentified) on our website/ Facebook site **and**
- Image being photographed or used in filmed press events agreed by the school **and**
- Full name being published with a press photograph? (At the present time, some local newspapers will not agree to publish a photograph without a full name)

Please Circle YES (if you give consent to **ALL** of the above)

Please Circle NO (if you do not give consent to the above)

Please note that websites can be viewed throughout the world and not just in the United Kingdom where UK law applies. Unidentified above means that School will only use the first name.

As the child's parents/guardian, we agree that if we take photographs or video recordings of our child/ren which include other pupils, we will use these for personal and family use only. We will not publish any photos or videos showing other children or staff on social media sites. I/we understand that the school uses apps which are GDPR compliant but may store data outside of the European Economic Area. If you want to opt out of these systems, please contact the school office to arrange an appointment to see Mr Whelerton. If you are happy to proceed, please give consent below.

I/we understand that where consent has not been obtained from the other parents/staff for any other use, we would be in breach of the Data Protection Act 1998 if we used our recordings for any wider purpose. I have read and understood the conditions of use below.
